- GIT
- NPM
- Asana
- Jira

Professional Summary

Mobile Application Developer specialising in React Native with 8+ years of front-end experience. Proven track record delivering mobile and web apps for international clients, from concept to production. Skilled in modern JS/TS, React Native and cross-platform development.

Experience

Mobile App Developer – Chibi Phoenix (2024 – 2025)

- • Led FE mobile development of Mobile Battler RPG, released on Nutaku (Android).
- • Set up native environments in Android Studio and Xcode for app deployment.
- • Built reusable components in React Native, optimized performance with hooks and context.

Front End Developer – Looming Tech (2023 – 2024)

- • Developed Hintsa mobile app (iOS/Android) with React Native, integrated APIs and data storage.
- • Collaborated with cross-functional teams to deliver features from design to production.

Front End Developer – Feia Bulgaria (2017 – 2023)

- • Built multiple healthcare apps (Pregnancy, Weaning, Anesthesia) used by thousands of users.
- • Developed web platforms including a DHL logistics dispatcher portal.
- • Maintained legacy apps and migrated them to modern React/React Native stacks.

Flash Animator – Dopamine (2015 – 2016)

- • Created Flash-based animations and interactive ads for digital marketing campaigns.

Education

Master's in Media Technologies and Games at the IT University of Copenhagen. (2010–2013)
