Professional Summary

Mobile Application Developer specializing in React Native with 8+ years of front-end experience. Proven track record delivering mobile and web apps for international clients, from concept to production. Skilled in modern JS/TS, React Native and cross-platform development.

Experience

Mobile App Developer - Chibi Phoenix (2024 - 2025)

- Led mobile development of Mobile Battler RPG, released on Nutaku (Android).
- Set up native environments in Android Studio and Xcode for app deployment.
- Built reusable components in React Native, optimized performance with hooks and context.

Front End Developer - Looming Tech (2023 - 2024)

- Developed Hintsa mobile app (iOS/Android) with React Native, integrated APIs and data storage.
- Collaborated with cross-functional teams to deliver features from design to production.

Front End Developer - Feia Bulgaria (2017 - 2023)

- Built multiple healthcare apps (Pregnancy, Weaning, Anesthesia) used by thousands of users.
- Developed web platforms including a DHL logistics dispatcher portal.
- Maintained legacy apps and migrated them to modern React/React Native stacks.

Flash Animator - Dopamine (2015 - 2016)

 Created Flash-based animations and interactive ads for digital marketing campaigns.

Education

Master's in Media Technologies and Games at the IT University of Copenhagen. (2010–2013)
